## GREEN DOOR PRINTMAKING STUDIO

We research, develop and teach the very latest techniques and processes for innovative and environmentally sound printmaking.

We are building a local, national and international artist's community of printmakers dedicated to safer printmaking practices by inviting contributions to our projects, exhibitions and print exchanges.

We strive to raise the profile of printmaking as a primary art form with a long and distinguished history.

## DERBY CATHEDRAL COFFEE HOUSE

Derby's Cathedral Quarter is the ideal city centre location for exhibitions and a recent collaboration with the Cathedral Centre Coffee House places work by members of Green Door Printmaking Studio at the very heart of this vibrant artistic Quarter.

Green Door has a rolling exhibition of prints by members of the studio on a wall in the Derby Cathedral Coffee House. All prints exhibited are available for sale and in many cases the artists also have unframed copies for sale on request.
